AEON 1% Club Foundation

Emergency Relief for Damages Caused by Torrential Rain in July 2020

The AEON 1% Club Foundation has made donations of 10 million yen to Kumamoto Prefectural Government, and 5 million yen to Oita Prefectural Government, respectively, as emergency relief funds to assist recovery work in areas heavily affected by successive landslides and river flooding caused by the unprecedented levels of torrential rain in the Kyushu region in July this year.

In the affected regions, there are still many people who have no choice but to live in uncomfortable conditions, even a month later. The AEON 1% Club Foundation wishes to express our deepest sympathies to all those who have suffered from the effects of the torrential rain, and it is our fervent hope that their normal daily life can resume as soon as possible.
